

HZ / HZD570

H-Class Vacuum

Numatic

The 570 series of Hazardous specification machines have been specifically designed to meet the requirements of industries where it is necessary to remove dust that could constitute a health hazard.

The power head is of all-steel construction and is available in a choice of either one or two motor construction. Power and performance are to full TwinFlo standards and NuCable replaceable systems are a standard fitment.

The HEPA filter units are securely mounted on their steel module with separate primary pre-filter mounted within the main container and the machines are designed to use our giant MicroFlo dust bags to ensure easy, clean and safe emptying.

Available with optional one or two motored models:

Simplex One Motored Model – HZ750 (32mm – AA19 Kit)

Duplex Two Motored Model – HZD570 (38mm – BB19 Kit)

Advanced Filtration

H-Class Compliant, engineered with HEPA H13 filter module.

Built to Last

Made for tough with power head of all-steel construction.

Powerful & Efficient

Professional, long-life 960W motor delivers powerful and efficient results.

Stay Cleaning for Longer

Huge 23L capacity, less time emptying, more time cleaning.

Easy, Clean & Safe Emptying

High-efficiency, triple-layer, giant MicroFlo multi-stage dust bags for fine dust collection.

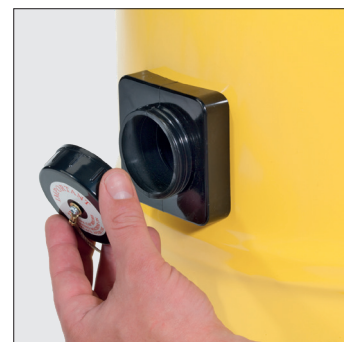

Plugged Easy Cable Change

H13 HEPA Filtration Module (EN1822)

Stainless Steel Gulper / Scraper Tool

Transit Safety Cap

Kit AA19

Kit BB19
